REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest, *inter alia*, a system for fluid management of a patient, comprising a first inflow container for storing fluid introduced into the patient; a pump coupled to the first inflow container for assisting fluid from the first inflow container into the patient and an outflow container for storing fluid collected from the patient; a first weighing device that weighs fluid in the first inflow container; a second weighing device that weighs fluid in the outflow container; a processor electrically coupled to the first and second weighing devices, the processor receiving input data from the first and second weighing devices representing the weights of the inflow and outflow containers respectively, an input device electrically coupled to the processor for inputting to the processor a specific gravity of the fluid; and a display device for displaying output data from the processor, wherein the processor continuously calculates, using the inputted weights of the inflow and outflow containers and the inputted fluid specific gravity, the difference in fluid volume between the inflow and outflow containers, and wherein said volume is displayed in the display device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
